| Orthotics Checkout | \$58 | \$40 |
| Orthotics Fitting | \$70 | \$50 |
| Orthotics Custom | \$200-260 | |
| Same | | |

Usually an evaluation is paired with one or two units of treatments, and subsequent treatments are 4 units/hour (or 48 to 55 minutes) of manual therapy or neuromuscular re-education. The average price for insurance billing is \$250, and self pay is around \$136 to \$96 when paid the day of service. The self pay fee will not include any billing, or insurance filling. You may request a ledger or a form to file with your insurance.

Many insurance companies cover therapy services but there are restrictions and limitations. You are responsible for the charges, even if you have insurance. As a courtesy, we will verify insurance coverage for our patients.

Therapy services provided only with referral from doctor.
